QUICK FACTS

Plant type
Tree

Evergreen or deciduous
Deciduous shrub. Upright to spreading. Can be sheared into a denser hedge. Informal appearance

Growth & Size
Rate: Not stated
Size: 3–5 ft (0.9–1.5 m) tall × 3–4 ft (0.9–1.2 m) wide. Upright, spreading, informal habit.<grok type ="render_inline_citation" citation_id="809" />

Soil
Medium to dry, well-drained. Adaptable to poor, rocky, clay, caliche, limestone, sand. Tolerates alkaline. Wide soil range

Sun

Water

Zone 8a
Hardy in Zones 7–10. Suitable for Atlanta Zone 8a. In colder winters may die back to roots and regrow. Excellent heat and drought tolerance

Native
Native to south-central Texas and adjacent northern Mexico. Rocky slopes, floodplains, shrublands.<grok type="render_inline_citation" citation_id="809" />

ORIGIN AND CHARACTERISTICS

Origin
Not stated

Form
Deciduous shrub. Upright to spreading. Can be sheared into a denser hedge. Informal appearance

Foliage
Not stated

Flowers and fruit
Not stated

Bark
Exfoliating bark noted on species. Pale

PLANTING NOTES

Siting
Not stated

Soil prep
Not stated

Depth & spacing
Not stated

Best planting season
Not stated

Establishment
Low maintenance. Prune for shape in fall or cut back severely every few years. In colder parts of range (Zone 7), dies to ground and re-emerges from roots. Cut to ground in late fall in some regions for denser spring growth. Takes well to pots

HEALTH

Problem	Symptoms
Health	Virtually disease and pest free. Deer-resistant. Salt-tolerant. No serious problems stated. May be browsed by rabbits or mammals in some areas
