QUICK FACTS

Plant type
Tree

Evergreen or deciduous
Evergreen shrub or small multi-stem tree. Dense, rounded to upright, compact habit. Slower growth than species

Growth & Size
Rate: Not stated
Size: Typically 5–10 ft (1.5–3 m) tall and wide. Compact, dense evergreen shrub or small tree. Some sources list 6–8 ft in 10 years, eventually ~10 ft; RHS notes ~2.5 m.<grok type="render_inline_citation" citation_id="829" />

Soil
Well-drained. Tolerates clay, loam, sand, poor/lean soils, acidic to alkaline. Prefers fertile, humus-rich. Avoid waterlogged ground

Sun

Water

Zone 8a
Hardy Zones 7–10. Suitable for Atlanta Zone 8a with good drainage. Protect young plants from hard freezes. Excellent heat and drought tolerance once established. Shelter from cold drying winds recommended

Native
Cultivar of *Arbutus unedo*, native to Mediterranean (southern Europe, Ireland). Garden selection.<grok type="render_inline_citation" citation_id="829" />
