QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Hardy Zones 3–8. Excellent perennializing Darwin Hybrid. In Atlanta, plant fall in well-drained soil; pre-chill if needed.
Good summer dry rest improves

Growth & Size
Rate: Not stated
Size: Height 20–24 in (50–60 cm). Spread 4–6 in

Sun

Water

Soil
Fertile, well-drained. Tolerates chalk, loam, sand

Zone 8a
Hardy Zones 3–8. Excellent perennializing Darwin Hybrid. In Atlanta, plant fall in well-drained soil; pre-chill if needed. Good summer dry rest improves return

PLANTING NOTES

Establishment
Plant fall, 6–8 in deep, 4–6 in apart. Mass plantings recommended. Deadhead; allow foliage to die back. Excellent for landscape beds, borders, and cut flowers

ORIGIN AND CHARACTERISTICS

Origin
Horticultural (Netherlands). Modern Darwin Hybrid, often noted as a disease-resistant replacement for older yellow varieties such as Golden Parade. Introduced around 2016

Form
Upright, columnar bulbous perennial with strong, weather-resistant stems. Large, cup-shaped flowers. Strong stems; holds color even in variable weather. Good naturalizer among hybrids

Foliage
Green to gray-green, lance-shaped leaves

Flowers and fruit
Not stated

Bark
Not applicable (bulbous perennial)

HEALTH

Health
Noted for good disease resistance (viruses and fungi) relative to many tulips. Still avoid wet soils.
Bulbs toxic if eaten; skin allergen

Symptoms
None stated
