QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: Height: 18–24 in. (45–60 cm). Spread: about 4 in. (10 cm) per plant; plant in groups. [Gardenia] [SiteOne]

Sun

Water

Soil
Moderately fertile, well-drained soils (chalk, loam, sand). Acid to neutral preferred. [Gardenia] [RHS plants]

Zone 8a
Listed as hardy in USDA Zones 3–8. Suitable for Atlanta Zone 8a when planted in fall and given good drainage. Darwin Hybrids are among the more perennial tulips and often return for several years in the Southeast with proper summer drainage. [SiteOne] [Gardenia]

ORIGIN AND CHARACTERISTICS

Origin
Cultivated Darwin Hybrid tulip (garden origin). Parentage from Tulipa gesneriana complex. [Gardenia] [Promesse de Fleurs]

Form
Bulbous perennial. Darwin Hybrid tulip with sturdy, long stems. Habit upright. Deciduous. [Gardenia] [SiteOne] [Promesse de Fleurs]. Color-changing flowers make it distinctive. Sturdy stems stand up to weather. Naturalizes more readily than many hybrid tulips. [Gardenia]

Foliage
Medium green, sword-like or strap-shaped leaves typical of garden tulips. [Netherland Bulb] [Promesse de Fleurs]

Flowers and fruit
Not stated

Bark
Not applicable (bulbous perennial)

PLANTING NOTES

Establishment

Plant bulbs in autumn, 5–7 in. deep, spaced about 4 in. apart. Prefers well-drained soil. Allow foliage to die back naturally after flowering to feed the bulb. Lift and divide offsets if desired. Good for beds, borders, and cut flowers. [Gardenia] [SiteOne] [Netherland Bulb]

HEALTH

Health

Watch for aphids, slugs, and squirrels. May be susceptible to tulip fire and bulb rot in poorly drained soil. Generally low maintenance when drainage is good. [Gardenia]

Symptoms

None stated
