QUICK FACTS

Plant Type: Evergreen woody vine / groundcover

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: As groundcover 6–10 in (15–25 cm) tall; spreads widely. Climbing potential similar to species when supported

Sun

Water

Soil
Well-drained soils

Zone 8a
Excellent for Atlanta Zone 8a (hardy Zones 7–9). Heat and humidity tolerant. Outstanding variegated groundcover for shady areas. Bright colors light up dark spots. Fragrant flowers. Fast growth. Low maintenance once established. May be less aggressive than the green species but still spreads

PLANTING NOTES

Planting
None stated

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of a species native to East Asia.
Trade name Snow-N- Summer™

Form
Vigorous evergreen groundcover or climber with tricolor foliage. Spreading habit

Foliage
Dramatic tricolor variegation. New growth emerges pink to pinkish-red, matures to solid white, then to deep emerald green flecked with white. Glossy, pointy leaves. Highly ornamental even in shade. Remains attractive through winter

Flowers and fruit
Tiny fragrant white tubular flowers from late spring to early summer. Typical of the species

Bark
Not stated

HEALTH

Health
Generally pest- and disease-free. No serious problems stated.
Monitor for scale or mealybugs under stress.
Deer resistance not specifically noted

Symptoms
None stated
