QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Herbaceous perennial

Growth & Size
Rate: Not stated
Size: 4 ft (1.2 m) tall × 5.5 ft (1.7 m) wide typical. Dense vase-shaped when young, broadly rounded when mature.
Deep-rooted.
Strong *B. australis* influence

Sun

Water

Soil
Moist but well-drained. Fairly adaptable.
Prefers average; avoid overly fertile. Tolerates clay

Zone 8a
Hardy Zones 4–9. Suitable for Atlanta Zone 8a. Drought- and heat-tolerant once established. Requires full sun and well-drained soil. Flowers may be partially obscured by foliage in warmer zones

ORIGIN AND CHARACTERISTICS

Origin
Complex hybrid of native North American species.
Bred at Chicago Botanic Garden

Form
Herbaceous perennial. Upright to broadly rounded mound. Vigorous. Deep extensive roots; do not transplant once established. PrairieBlues series. Complex hybrid mainly from *B. australis*, with *B. bracteata* and *B. sphaerocarpa*. Saturated dark purple blooms

Foliage
Attractive blue-green trifoliate foliage.
Cloaks plant all summer

Flowers and fruit
Incredibly saturated dark violet-purple flowers. Inch-wide on 18 in racemes. Mid-May for about 3 weeks. May be partially hidden in foliage in warmer zones.
Attracts butterflies; Gray seed pods in fall

Bark
Not woody

PLANTING NOTES

Establishment
Low maintenance. Full sun essential. Plant in permanent location. Excellent for borders, mass plantings. Heat and humidity tolerant. Avoid shade or rich soils to prevent lodging

HEALTH

Health
Good to excellent disease resistance. Possible seed weevil. Genista broom moth may defoliate in warmer climates. Deer- resistant. No serious problems stated

Symptoms
None stated
