QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Herbaceous perennial

Growth & Size
Rate: Not stated
Size: 3.5 ft (1 m) tall × 5 ft (1.5 m) wide typical. Upright vase-shaped at bloom, maturing to dense broad mound.
Some trial sizes ~46 × 74 in

Sun

Water

Soil
Moist but well-drained. Fairly adaptable to many soils. Prefers average fertility

Zone 8a
Hardy Zones 4–9. Suitable for Atlanta Zone 8a. Drought- and heat-tolerant once established. Prefers full sun and well-drained soil. Monitor for potential lodging in humid conditions

PLANTING NOTES

Establishment
Low maintenance. Plant in permanent location. Excellent for borders, specimens. Heat and humidity tolerant. Note: some trials noted increasing flop of flowers with maturity (parentage influence)

ORIGIN AND CHARACTERISTICS

Origin
Advanced-generation hybrid. Parent species native to North America

Form
Herbaceous perennial. Vase-shaped in bloom, becoming broad rounded mound. Vigorous, adaptable. Deep-rooted. Chicagoland Grows® / PrairieBlues series. Hybrid from *B. australis* and *B. bracteata*. Distinctive color-changing flowers

Foliage
Trifoliate, clean green foliage. Dense.
Masks stem bases at maturity

Flowers and fruit
Medium rose-violet aging to soft lavender-rose. Inch-wide flowers densely on 18 in racemes. Mid-May to early June (about 3 weeks). Unique color change; Gray seed pods in fall

Bark
Not woody

HEALTH

Health
Good to excellent disease resistance. Possible seed weevil (does not affect display). Genista broom moth caterpillar may defoliate in warmer climates. Deer-resistant.
No serious problems stated

Symptoms
None stated
