QUICK FACTS

Plant Type: Herbaceous perennial

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 1–1.5 ft (30–45 cm) tall; 1–1.5 ft (30–45 cm) wide. Compact, mounding habit

Sun

Water

Soil
Average, well-drained soils

Zone 8a
Excellent for Atlanta Zone 8a. Heat tolerant. Reliable long summer bloom. Ideal for borders, rock gardens, and pollinator plantings. Low maintenance with good drainage. Evergreen foliage in mild winters

PLANTING NOTES

Planting
None stated

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of a species native to the southeastern United States. Discovered by Peachie Saxton

Form
Evergreen basal rosette of leaves with erect leafy flowering stems. Compact selection

Foliage
Lance-shaped to elliptic, medium green leaves to about 6 in long. Evergreen in warm climates.
Stem leaves smaller and stalkless

Flowers and fruit
Fluffy, cornflower-like, violet-blue flowers to about 3 in across with notched rays and yellow centers. June to September (long bloom, late-blooming selection). Attracts butterflies

Bark
Not stated

HEALTH

Health
Generally pest- and disease-free. Deer resistant. No serious problems stated. Flower stems may flop after heavy rain. Watch for caterpillars

Symptoms
None stated
