## QUICK FACTS

Plant Type: Not stated

**Evergreen or deciduous**
Marginal for Atlanta Zone 8a as a perennial. Hardy Zones 9–11. Typically used as a warm-season annual in colder zones. Heat and humidity tolerant. May return from roots after mild winters. Not stated for specific Atlanta overwintering performance

**Growth & Size**
Rate: Not stated
Size: - 8–12 in tall × 14–16 in wide (LSU AgCenter). - Compact form, approximately one-third the height of the species

**Sun**

**Water**

**Soil**
- Prefers well-drained, moist soil

**Zone 8a**
Marginal for Atlanta Zone 8a as a perennial. Hardy Zones 9–11. Typically used as a warm-season annual in colder zones. Heat and humidity tolerant. May return from roots after mild winters. Not stated for specific Atlanta overwintering performance

## PLANTING NOTES

**Establishment**
- Plant after last frost as a warm-season annual in Zone 8a. Protect from heavy frost. Water until established. Prune as needed to maintain shape

## ORIGIN AND CHARACTERISTICS

**Origin**
- Cultivar of Alternanthera dentata, which is native to tropical regions (LSU AgCenter). - Not native to North America

**Form**
- Compact, mounding, spreading herbaceous perennial. Used as groundcover or bedding plant

**Foliage**
- Deep burgundy to ruby-red foliage. Lustrous. Color more intense in full sun; greener in shade.
- Evergreen in frost- free climates

**Flowers and fruit**
- Small white flowers in spring. Not showy (LSU AgCenter)

**Bark**
- Not applicable (herbaceous)

## HEALTH

**Health**
- No serious insect or disease problems stated. Low maintenance (LSU AgCenter)

**Symptoms**
None stated
