QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Hardy Zones 9–11 (tender perennial). Grown as annual in Atlanta Zone 8a. Excellent summer performer in containers and baskets. Protect from intense afternoon heat if needed. Dig tubers before frost for overwintering if desired

Growth & Size
Rate: Not stated
Size: 12–16 in (30–41 cm) tall and wide.
Trailing, cascading habit. Stems 1

Sun

Water

Soil
Light, rich, moist, well-drained loam. Adaptable pH.
Good air circulation. Protect from strong winds

Zone 8a
Hardy Zones 9–11 (tender perennial). Grown as annual in Atlanta Zone 8a. Excellent summer performer in containers and baskets. Protect from intense afternoon heat if needed.
Dig tubers before frost for overwintering if desired

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of *Begonia boliviensis*, native to Bolivia (Andean cloud forests). Proven Winners selection

Form
Trailing tuberous perennial (grown as annual in most zones). Cascading, elegant. Medium growth rate.
Proven Winners selection. Continuous cascading color

Foliage
Slender, sharply pointed, arrow-shaped or oval green leaves. Glossy. Angel-wing type

Flowers and fruit
Vivid scarlet-orange / red-orange, elongated, fuchsia-like, velvety flowers on red stems. Continuous bloom from planting to frost (late spring through fall). Self-cleaning; no deadheading needed

Bark
Not applicable

PLANTING NOTES

Establishment

Low maintenance. Excellent for hanging baskets, containers, vertical gardens. Heat- and drought-tolerant once established. In zones colder than 9–11, dig and store tubers over winter. No deadheading. Fertilize moderately

HEALTH

Health

Generally easy and carefree. Possible pests: aphids, mealybugs, mites, vine weevil, caterpillars. Diseases: grey mould, powdery mildew, stem/rhizome rot in wet conditions. Toxic to dogs, cats, horses. No serious problems when well-sited

Symptoms

None stated
