Evergreen or deciduous
Hardy in USDA Zones 10–11. Treated as an annual, container plant, or tender perennial in Atlanta Zone 8a. Can be overwintered indoors. Long bloom period into cooler months in mild climates

Growth & Size
Rate: Not stated
Size: 1–2 ft (0.3–0.6 m) high × 1–2 ft (0.3–0.6 m) wide.
Upright, rounded, bushy perennial/sub- Quick-growing

Sun

Water

Soil
Medium moisture, rich, humusy, well-drained soil

Zone 8a
Hardy in USDA Zones 10–11. Treated as an annual, container plant, or tender perennial in Atlanta Zone 8a. Can be overwintered indoors. Long bloom period into cooler months in mild climates

ORIGIN AND CHARACTERISTICS

Origin
Hybrid developed in the late 1990s at Kirstenbosch Botanical Garden, Cape Town, South Africa. Cross of P. saccatus (seed parent) × P. hilliardiae ssp. australe 'Magwa' (pollen parent). U.S. Plant Patent PP13,858 (2003).
Commercialized by Ball Horticultural

Form
Herbaceous perennial or soft-wooded shrub with glossy, ovate, dark green leaves that are purple underneath and on stems. Abundant tubular, two-lipped lavender-purple flowers in spikes (to 6 in) over a long season (late summer through winter in mild climates). Grown for both flowers and foliage. Notable for long bloom period and contrasting purple leaf undersides. More floriferous than many Plectranthus. Popular for shade gardens and mixed containers. Named after the Mona Lisa in some accounts of its breeding

Foliage

PLANTING NOTES

Establishment

Plant in partial shade with well-drained, fertile soil. Water regularly for even moisture. Pinch to encourage bushiness. Excellent in containers, borders, hanging baskets, or as a houseplant. Propagates readily from cuttings. Bring indoors before frost in cooler zones.
Florida-Friendly and award- winning in the Southeast

HEALTH

Health

No serious insect or disease problems.
Watch for mealybugs and mites. Generally easy and trouble-free

Symptoms
