Plant Type: Not stated

Evergreen or deciduous
Hardy in USDA Zones 10–11 (treated as annual elsewhere). Excellent for Atlanta Zone 8a as a heat- and drought-tolerant annual in containers, hanging baskets, or ground cover.
Performs well in full sun

Growth & Size
Rate: Not stated
Size: 4–10 in (10–25 cm) high × 10–18 in (25–45 cm) wide.
Compact, semi-trailing, mat-forming annual

Sun

Water

Soil
Well-drained soil. Suitable for poor or compacted soils

Zone 8a
Hardy in USDA Zones 10–11 (treated as annual elsewhere). Excellent for Atlanta Zone 8a as a heat- and drought-tolerant annual in containers, hanging baskets, or ground cover.
Performs well in full sun

ORIGIN AND CHARACTERISTICS

Origin
Cultivar in Danziger's PAZZAZ NANO™ series of Portulaca oleracea. Selected for compact trailing habit, early flowering, heat/drought tolerance, and vibrant color

Form
Annual succulent with trailing/semi-trailing habit. Succulent green foliage. Medium single mango-orange flowers that stay open longer. Blooms spring through summer. Naturally compact and early flowering. No fall color (annual). Part of the NANO series for smaller containers and controlled growth. Bright mango-orange blooms over succulent foliage. Strong performer in heat/drought programs. Flowers stay open longer than many Portulaca
