QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: Typically 1–2 ft tall as a compact plant; can trail or climb 3–6 ft with support.
Spread 1–3 ft

Sun

Water

Soil
High humidity preferred. Well-draining aroid mix

Zone 8a
Not hardy outdoors in Zone 8a. Best as a houseplant or seasonal container plant brought indoors before frost

PLANTING NOTES

Planting
None stated

ORIGIN AND CHARACTERISTICS

Origin
Not stated

Form
Evergreen tropical climbing or trailing vine (aroid). Compact when young; develops longer stems with maturity

Foliage
Arrowhead-shaped leaves with highly variable chimeric variegation of pink, cream, mint, and dark green sectors and mottling. New leaves often pale; color develops as they harden. Unstable pattern

Flowers and fruit
Arum-like spathes rarely produced in cultivation

Bark
Not stated

HEALTH

Health
No serious problems stated for indoor culture. Watch for overwatering (root rot), spider mites, or mealybugs in dry conditions. Toxic if ingested (calcium oxalate)

Symptoms
None stated
