Rate: Not stated
Size: 6–15 ft (2–4.5 m) tall; 6–10 ft (2–3 m) wide.
Rounded, upright Variable by clim

Sun

Water

Soil
Moist soils. Moderate fertility; prefers acid conditions (similar to rhododendrons)

Zone 8a
Marginal to tender in Atlanta Zone 8a (hardy Zones 10–11). Best treated as a tender perennial, container plant, or protected specimen. May survive mild winters with protection but often dies back or requires overwintering indoors. Outstanding tropical foliage and flowers when grown successfully.
Not reliably hardy outdoors year-round

ORIGIN AND CHARACTERISTICS

Origin
Native to Brazil. Recommended by Roberto Burle Marx

Form
Rounded to upright shrub with large leaves.
Can be multi- stemmed

Foliage
Very large, silvery, felted (tomentose) leaves.
Ornamental year-round. Fuzzy texture

Flowers and fruit
Terminal clusters of exquisite royal-purple blooms with long white stamens. Fall through winter in warm climates or conservatories; spring to summer in some regions.
Attracts birds and butterflies
