QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: (or semi- in colder winters), typically 3–6 ft tall and wide. Compact to open-branched habit. [Woodlanders; PlantLust; Georgia Perennial Plant Association; Almost Eden]

Sun

Water

Soil
Moist, acidic, well-drained soils rich in organic matter. Mulch recommended. [Woodlanders; Almost Eden; Brookgreen]

Zone 8a
Hardy Zones 7–9 (some reports to Zone 4–8 or 8–9). Suitable for Atlanta Zone 8a. May be semi-deciduous in colder winters. Best with protection from cold drying winds. [Woodlanders; PlantLust; Almost Eden; Chicago Botanic Garden]

ORIGIN AND CHARACTERISTICS

Origin
Japanese origin; likely hybrid or form of Rhododendron macrosepalum (sometimes treated as R. stenopetalum ‘Linearifolium’ or related). Introduced to US in 1929. American Rhododendron Society Azalea of the Year 2015. [Woodlanders; Dave Creech; Azalean historical notes]

Form
Evergreen with elongated, hairy dark green leaves; may take reddish-purple tones in winter. Open-branched, spreading habit. No significant fall color beyond possible winter bronze. [Woodlanders; Georgia Perennial Plant Association; Promesse de Fleurs]. Unique flower form distinguishes it from typical azaleas. May rebloom sparsely in fall. Invasive status: not stated (introduced ornamental). [Woodlanders; Georgia Perennial Plant Association]

Foliage
Not stated

Flowers and fruit
Not stated

Bark
Not stated

PLANTING NOTES

Establishment

Plant in part shade in moist, acidic, well-drained soil. Mulch with pine straw or bark. Prune after flowering if needed. Suitable for massing, slopes, borders.
[Almost Eden; Georgia Perennial Plant Association]

HEALTH

Health

Generally durable and low-maintenance. Standard azalea issues (lacebug, root rot in poor drainage) possible but not specifically reported as severe on this cultivar.
[Almost Eden; Woodlanders]

Symptoms

None stated
