QUICK FACTS

Plant Type: Shrub

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 2–3 ft tall × 3–5 ft wide (mid-range of reported figures). Compact, tight habit

Sun

Water

Soil
Well-drained garden soil. Soil pH not specifically stated for cultivar (species hybrid tolerates acid to alkaline)

Zone 8a
Hardy USDA zones 6–10. Semi-evergreen to evergreen in the southeastern United States. Heat tolerant. Suitable for Atlanta Zone 8a. Specific urban performance beyond general hardiness not stated

ORIGIN AND CHARACTERISTICS

Origin
Hybrid of garden origin (sport of Abelia × grandiflora ‘Kaleidoscope’). Not native

Form
Compact, low-mounding, multi-stemmed shrub. Variegated foliage with warm apricot/peach tones; new growth yellow-green, stronger apricot in cooler months; vivid crimson stems. Fragrant white tubular flowers mid-summer to fall. No notable bark stated for cultivar (species hybrid has exfoliating bark — species proxy). Evergreen to semi-evergreen. Attracts pollinators. Suitable for borders, low hedges, containers, mass plantings. Patent PP34,885

Foliage
Not stated

Flowers and fruit

Bark
Not stated

PLANTING NOTES

Establishment

Shape in early spring before first flush if needed. Blooms on new wood. Little to no fertilizer required; controlled-release in spring optional. Plant in native soil; water thoroughly at planting

HEALTH

Health

No serious problems stated for the cultivar. Species hybrid has no serious insect or disease problems; aphids occasionally reported. Heat and drought tolerant once established. Deer resistant reported

Symptoms

None stated
