QUICK FACTS

Plant Type: Shrub

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: 3–5 ft (0.9–1.5 m) tall and wide. Upright, well-branched, compact mound.
Hybrid (‘White Ball’ × ‘Attraction’)

Sun

Water

Soil
Average, medium moisture, well-drained.
Adapts to clay if amended. Prefers good drainage

Zone 8a
Hardy Zones 5–9. Excellent for Atlanta Zone 8a. Heat- and drought-tolerant. Full sun and good drainage essential. Reliable summer bloomer. Parent of ‘Miss Molly’

PLANTING NOTES

Establishment
Prune hard in early spring. Low maintenance. Excellent for borders, pollinator gardens, containers. Heat-loving. Fertilize lightly in spring. Deadheading optional

ORIGIN AND CHARACTERISTICS

Origin
Hybrid. Bred at North Carolina State University by Dennis Werner. Introduced 2009. RHS AGM

Form
Deciduous shrub. Compact, upright, dense, well-branched. Medium size. Blooms on new wood. Color-break introduction. Proven Winners

Foliage
Green to grey-green leaves. Attractive.
Deciduous (semi- evergreen in mild areas)

Flowers and fruit
Bright reddish-pink / cerise-red / magenta-pink spike-like clusters. Fragrant. June–September / mid-summer to fall. Attracts butterflies and hummingbirds.
Outstanding color at introduction

Bark
Not prominently noted

HEALTH

Health
No serious insect or disease problems. Nematodes possible in southern U.S. Deer- and rabbit-resistant. Heat- and drought-tolerant. Non-invasive. No serious problems stated

Symptoms
None stated
