QUICK FACTS

Plant Type: Shrub

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 10–12 ft high × 6–8 ft wide

Sun

Water

Soil
Prefers acidic, well-drained, consistently moist soils; tolerates a range including loam and chalk

Zone 8a
Hardy in USDA Zones 7–9. Suitable for Atlanta Zone 8a

ORIGIN AND CHARACTERISTICS

Origin
Hybrid of Ilex crenata 'Sky Pencil' (seed parent) × unnamed I. maximowicziana (pollen parent). Developed by Dr. John M. Ruter at the University of Georgia. Patent PP 23,905

Form
Evergreen shrub with a natural pyramidal (columnar) form, dense glossy bright green foliage that is tolerant of shearing. Leaves are spineless. New foliage is bright green, maturing to clear green. Small cream-colored flowers in spring; male plant, does not produce berries. Bark smooth, greyed-orange. Male cultivar; no fruit. Relatively fast growth rate for a Japanese holly type. Widest at the middle with rounded base and pyramidal apex. Suitable for formal landscapes and Asian-style designs
