QUICK FACTS

Plant Type: Tree

Evergreen or deciduous
Deciduous. Medium tree. Rounded to umbrella-shaped crown. Moderate growth. Often irregular when young, becoming symmetrical

Growth & Size
Rate: Not stated
Size: 30–40 ft (up to 50 ft). Confirmed by multiple (30–35 to 30–40 ft typical) × 25–40 ft. Confirmed

Sun

Water

Soil
Adaptable to a wide range including poor, clay, alkaline. Prefers well-drained. Avoid poorly drained or winter-wet sites

Zone 8a
Excellent for Zone 8a. Hardy Zones 6–9. Non-native (China). Outstanding fall color (orange, red, crimson) even in mild Atlanta winters. Drought and heat tolerant once established. Rounded umbrella form. Adaptable urban tree. Few pests. Male trees preferred to avoid messy fruit. Reliable performer in Atlanta landscapes

ORIGIN AND CHARACTERISTICS

Origin
Native to China. Widely cultivated in the southern U.S. for fall color and toughness

Form
Deciduous. Medium tree. Rounded to umbrella-shaped crown. Moderate growth. Often irregular when young, becoming symmetrical

Foliage
Brilliant orange, red, crimson. One of the best for warm climates. Reliable in Zone 8a

Flowers and fruit
Not stated

Bark
Gray-brown, develops shallow furrows and scaly ridges with age

PLANTING NOTES

Siting
Not stated

Soil prep
Not stated

Depth & spacing
Not stated

Best planting season
Not stated

Establishment
Plant in full sun in well-drained soil. Water until established. Excellent small-medium shade, street, or specimen tree. Select for good fall color. Prefer male selections to avoid fruit drop. Minimal maintenance. Highly heat and drought tolerant once established

HEALTH

Health
Generally free of serious pests and diseases. Resistant to many issues. Occasional minor problems. Specific Zone 8a incidence thin. No serious problems stated

Symptoms
None stated
