QUICK FACTS

Plant Type: Tree

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: 15–30 ft. Size range varies; no tight three-agreement × 10–30 ft.
Spread range varies

Sun

Water

Soil
Well-drained, slightly acidic preferred. Adaptable

Zone 8a
Suitable for Zone 8a. Hardy Zones 5–9. Noted as one of the more heat- and humidity-tolerant Japanese maples. Selected by Dr. Michael Dirr for southern performance. Performs well in full sun to part shade in Atlanta conditions with adequate moisture. NC State confirms Japanese maple group performance with afternoon shade. Existing notes stand

ORIGIN AND CHARACTERISTICS

Origin
Selected by Dr. Michael Dirr at the University of Georgia for heat, humidity, and sun tolerance. Georgia Gold Medal Winner

Form
Deciduous tree. Upright to rounded, vigorous.
Good small shade tree

Foliage
Outstanding: red, orange, yellow, purple

Flowers and fruit
Not stated

Bark
Not stated in detail. Red petioles noted

PLANTING NOTES

Establishment
Plant in full sun to part shade in moist, well-drained soil.
Water regularly until established. More tolerant of southern conditions than most Acer palmatum cultivars.
Prune in dormancy if needed

HEALTH

Health
Low issues when sited correctly. More resistant to leaf scorch than many Japanese maples. Typical maple pests possible but not highlighted as serious. Specific data is limited beyond heat tolerance claims

Symptoms
None stated
