QUICK FACTS

Plant Type: Tree

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: - 20–30 ft tall × 15–25 ft wide.
- Compact, rounded crown

Sun

Water

Soil
- Average, well-drained soils. - Prefers acidic soils.
Species prefers moist, acidic soils

Zone 8a
Suitable for Atlanta Zone 8a. Compact Shantung maple selected for urban use. Heat and drought tolerant. Introduced by Worthington Farms, Greenville, North Carolina. Not stated for specific Atlanta urban performance beyond general Zone 4–9 hardiness and southeastern origin

ORIGIN AND CHARACTERISTICS

Origin
- Cultivar of Acer truncatum, native to northern China and Korea. - Not native to North America

Form
- Compact, rounded deciduous tree with dense crown and upswept branches suitable for street tree use. - Introduced by Worthington Farms, Greenville, North Carolina.
Plant patent PP20,109

Foliage
- Palmate leaves with pointed lobes. New growth reddish-purple, maturing to dark green with reddish edge. Fall color orange to orange-red. - Species has truncate leaf bases and milky sap in petioles

Flowers and fruit
- Greenish-yellow flowers in spring, insignificant.
- Fruit is a double samara

Bark
- Brown with darker irregular furrows running lengthwise, becoming more pronounced with age (Urban Forest Nursery). - Species bark is smooth when young, becoming shallowly ridged

PLANTING NOTES

Establishment

- Water regularly during establishment. - Suitable as street tree, specimen, or shade tree in limited space.
- Low maintenance once established

HEALTH

Health

- Low maintenance. Susceptible to verticillium wilt and anthracnose. - Species has good heat and drought tolerance. - High resistance to leaf scorch, leaf spot, powdery mildew, and root rot noted for cultivar (Sooner Plant Farm)

Symptoms

None stated
