Evergreen

Growth & Size
Rate: Not stated
Size: 15 feet tall × 10–15 feet wide. [Bold Spring]

Sun

Water

Soil
Adaptable to sandy or heavier clay soils; drought tolerant once established. [Bold Spring, UF/IFAS for species]

Zone 8a
Hardy in Zones 5–9; native SE US species, well-suited to Atlanta Zone 8a. [Bold Spring, UF/IFAS]

PLANTING NOTES

Establishment
Low maintenance. Tolerant of wet soils and heat. [Bold Spring]

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of Osmanthus americanus, native to the southeastern United States. [Bold Spring, UF/IFAS]

Form
Small evergreen tree or large shrub with dense, lustrous dark olive-green foliage year-round. Fragrant white flowers in early spring. [Bold Spring]. Selected for fully evergreen habit. Good native alternative to non-native tea olives. [Bold Spring]
