LEAF

FLOWER

## QUICK FACTS

Plant Type: Deciduous small tree or large shrub

### Evergreen or deciduous

Well suited to Atlanta Zone 8a (hardy to Zone 5). Heat tolerant with adequate moisture. Outstanding dark foliage and white flowers provide high contrast. Excellent small flowering tree for borders or specimen use. Provide good drainage and shelter from extreme drying winds if needed

### Growth & Size

Rate: Not stated
Size: 10–15 ft (3–4.5 m) tall; 8–12 ft (2.5–3.5 m) wide.
Upright, oval to vase-shaped habit. Often multi-stemmed

### Sun

### Water

### Soil

Evenly moist, well-drained, acidic to neutral soils. Prefers sandy or loamy soils. Avoid alkaline soils (chlorosis risk) and poor drainage

### Zone 8a

Well suited to Atlanta Zone 8a (hardy to Zone 5). Heat tolerant with adequate moisture. Outstanding dark foliage and white flowers provide high contrast. Excellent small flowering tree for borders or specimen use. Provide good drainage and shelter from extreme drying winds if needed

## ORIGIN AND CHARACTERISTICS

### Origin

Chance seedling of Styrax japonicus (species native to Japan, China, Korea). Discovered by Henny Kolster, Boskoop, Netherlands, 2001

### Form

Upright, bushy, vase-shaped small tree or large shrub with horizontal branching

### Foliage

Simple, elliptic to elliptic-lanceolate leaves. Emerge deep purple to maroon/black in full sun, maturing to maroon-green or dark olive/bronze in shade. Glossy, slightly toothed

### Flowers and fruit

Pendulous, bell-shaped, pure white to very pale pink flowers with dark red/maroon calyces. May–June. Fragrant. Contrast beautifully with dark foliage. 4–8 flowers per raceme

### Bark

Not stated

## PLANTING NOTES

### Planting
None stated

## HEALTH

### Health
Generally pest- and disease-free. No serious problems stated by inventor. Chlorosis possible in alkaline soils

### Symptoms
None stated
