QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: Height: 20–30 feet (or more with support). Spread: 6–10 feet.
[Monrovia] [Gardenia.net]

Sun

Water

Soil
Adaptable. Prefers well-drained, average soil. Tolerates clay. [Monrovia]

Zone 8a
Reliable evergreen to semi-evergreen performer in Atlanta. Handles summer heat and humidity well. Occasional winter bronze on foliage is normal. [Local performance notes, extension]

ORIGIN AND CHARACTERISTICS

Origin
Not stated

Form
Vigorous evergreen to semi-evergreen woody vine. Climbs by tendrils with adhesive disks. Dense, spreading habit. Fast growth rate. [Monrovia] [NC State Extension]. Excellent for screening and vertical interest. Attracts hummingbirds. Native species cultivar. [Monrovia] [Gardenia.net]

Foliage
Compound leaves, opposite, with 2 leaflets and a terminal tendril. Leaflets ovate to lanceolate, glossy dark green, 2–4 inches long. Semi-evergreen in Atlanta Zone 8a; may bronze in winter. [Monrovia] [Gardenia.net]

Flowers and fruit
Not stated

Bark
Mature stems woody, brown, with peeling bark on older growth. [General observation, secondary]

PLANTING NOTES

Establishment

Provide sturdy support (trellis, arbor, fence). Prune after flowering if needed to control size.
Easy to establish. [Monrovia]

HEALTH

Health

Generally pest- and disease-resistant. Occasional scale or aphids. No serious problems stated. [NC State Extension]

Symptoms

None stated
