Evergreen

Growth & Size
Rate: Not stated
Size: Compact mounding, 3–6 ft tall and wide (reports of 5–6 ft). [Monrovia; Fine Gardening; US Plant Patent USPP23385P3]

Sun

Water

Soil
Well-drained soils. [Monrovia; Fine Gardening]

Zone 8a
Hardy Zones 6–9. Fully suitable for Atlanta Zone 8a. Bred in Watkinsville, Georgia. [Monrovia; Fine Gardening; US Plant Patent]

PLANTING NOTES

Establishment
Plant in full sun to part sun. Water regularly during first season to establish. Prune to remove dead or damaged wood. Low maintenance. Suitable for foundation, borders, focal point. [Monrovia]

ORIGIN AND CHARACTERISTICS

Origin
Open-pollination of Viburnum ‘Nantucket’ (Watkinsville, GA). Lineage traces to V. ‘Eskimo’ and V. macrocephalum f. keteleeri. Selected for compact habit and improved evergreen foliage. Patented 2013 by Michael A. Dirr (USPP23385P3). Trade name Pearlific. [US Plant Patent; Monrovia]

Form
Evergreen. Small, lustrous dark green foliage, pubescent on lower surface. Compact mounding habit. Year-round foliage interest. [US Plant Patent; Monrovia; Fine Gardening]. Evergreen hybrid with multi-season interest. Patent protected. Invasive status: not stated (hybrid ornamental).
[US Plant Patent; Monrovia]
