QUICK FACTS

Plant Type: Tree

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: 15–25 (to 35) ft tall × 15–25 ft wide

Sun

Water

Soil
Adaptable, well-drained soils of various pH

Zone 8a
Hardy in USDA Zones 5–9 (commonly listed 6–8). Suitable for Atlanta Zone 8a; adaptable and drought-tolerant once established. Not specifically addressed for Atlanta by primary

PLANTING NOTES

Planting
None stated

ORIGIN AND CHARACTERISTICS

Origin
Native to central United States south to northeastern Mexico (including Alabama, Texas, and western Georgia)

Form
Small deciduous tree, usually single-trunked and non-suckering, with a rounded or open crown. Sparsely thorny

Foliage
Deciduous elliptic to ovate leaves, yellow-green above, soft-hairy beneath, double-toothed margins.
Fall color yellow to orange or red

Flowers and fruit
Fragrant white (sometimes pale pink) flowers in spring before leaves, in small clusters. Edible purplish-red to dark purple plums (~1 in), glaucous, late summer to fall

Bark
Not stated

HEALTH

Health
No serious insect or disease problems stated. Susceptible to Armillaria in some reports; general fruit-tree pests possible if harvested. Few issues in healthy, well-drained soil

Symptoms
None stated
