QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 15–25 ft (4.5–7.5 m) high × 5–10 ft (1.5–3 m) wide.
Narrowly conical upright
Strong central leader

Sun

Water

Soil
Average, moist, well-drained soils.
Tolerates a range of soils. Good for screening

Zone 8a
Hardy in USDA Zones 3–7 (marginal in 8a). Suitable for Atlanta Zone 8a with afternoon shade and moisture. Narrow upright form of eastern arborvitae. Dense dark green foliage that retains excellent color year-round without winter bronzing. Fast growth. Excellent for privacy screens and hedges. Deer resistant.
Strong performer for the South

PLANTING NOTES

Establishment
Plant in full sun to part shade with consistent moisture. Excellent for privacy screens, hedges, and windbreaks. Shear lightly if desired. Low maintenance. Water to establish. Outstanding year-round green arborvitae for Atlanta

ORIGIN AND CHARACTERISTICS

Origin
Seedling selected in the 1940s by F. C. Hetz and Fairview Evergreen Nursery in Fairview, Pennsylvania. Selected for its robust growth, narrow habit, and superior winter color retention. Widely planted as an improved screening arborvitae

Form
Narrowly conical upright evergreen. Dense bright green scale-like foliage that holds color year-round. Strong central leader. Excellent for screening and hedging. Attractive winter form. Fast growth rate. Improved eastern arborvitae that holds green color year-round. Narrow upright form. Fast growth. Excellent for screening. Deer resistant.
Strong performer in the South with proper care
