Rate: Not stated
Size: 15–25 ft (4.5–7.5 m) high × 15–25 ft (4.5–7.5 m) wide.
Broad, airy, vase-shaped habit. ra

Sun

Water

Soil
Well-drained soil. Moderate summer irrigation preferred in some climates. Adaptable

Zone 8a
Hardy in USDA Zones 5–10 (or 6–10). Suitable for Atlanta Zone 8a. Fragrant purple flower spikes over a long summer bloom period. Attracts bees, butterflies, and hummingbirds. Low maintenance. Yellow fall color. Excellent accent or small shade tree

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of Vitex agnus-castus (chaste tree), native to southern Europe and Asia. 'Montrose Purple' selected for large terminal spikes of indigo/purple flowers that set it apart from variable seedlings. Long-lived and adaptable

Form
Deciduous tree with large palmate green leaves (spicy fragrance). Rich purple/indigo fragrant flower spikes in summer (extended bloom). Yellow fall color. Broad airy canopy. Round dark brown seeds after flowering. Vase-shaped habit. Striking purple flower spikes and airy habit. Fragrant blooms over an extended season. Drought tolerant and low maintenance. Good for smaller landscapes. Attracts wildlife. Yellow fall foliage. Selected for superior flower color and size
