Zone 8a
Hardiness commonly Zones 4–8. Suitable for Atlanta Zone 8a. Prefers hot, humid climates according to some nursery notes

PLANTING NOTES

Establishment
Full sun, average well-drained soil. Little pruning needed; prune before budbreak if shaping. Good for narrow spaces, hedges, or street plantings. Frank Schmidt, Clemson HGIC

ORIGIN AND CHARACTERISTICS

Origin
Species native to northern Iran and Azerbaijan.
Cultivar selected in Oregon for upright habit

Form
Strongly upright columnar to oval form. Leaves emerge purple, mature green with purple margins, and turn yellow, orange, red, and burgundy in fall. Small clusters of crimson-red stamens (petal-less) in early spring. Exfoliating bark develops with age. Frank Schmidt, Clemson HGIC. PP#24951. Strong fall color and fine texture. Excellent vertical accent.
