Atlanta Botanical Garden - Expansion

Styrax japonicus Siebold & Zucc. 'Evening Light'

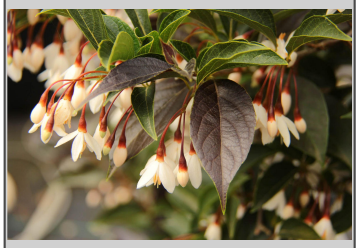

Evening Light Japanese Snowbell

HABIT

OTHER

LEAF

FLOWER

QUICK FACTS

Plant Type: Deciduous small tree or large shrub

Evergreen or deciduous

Well suited to Atlanta Zone 8a (hardy to Zone 5). Heat tolerant with adequate moisture. Outstanding dark foliage and white flowers provide high contrast. Excellent small flowering tree for borders or specimen use. Provide good drainage and shelter from extreme drying winds if needed

Growth & Size

Rate: Not stated
Size: 10–15 ft (3–4.5 m) tall; 8–12 ft (2.5–3.5 m) wide.
Upright, oval to vase-shaped habit. Often multi-stemmed

Sun

Water

Soil

Evenly moist, well-drained, acidic to neutral soils. Prefers sandy or loamy soils. Avoid alkaline soils (chlorosis risk) and poor drainage

Zone 8a

Well suited to Atlanta Zone 8a (hardy to Zone 5). Heat tolerant with adequate moisture. Outstanding dark foliage and white flowers provide high contrast. Excellent small flowering tree for borders or specimen use. Provide good drainage and shelter from extreme drying winds if needed

ORIGIN AND CHARACTERISTICS

Origin

Chance seedling of Styrax japonicus (species native to Japan, China, Korea). Discovered by Henny Kolster, Boskoop, Netherlands, 2001

Form

Upright, bushy, vase-shaped small tree or large shrub with horizontal branching

Foliage

Simple, elliptic to elliptic-lanceolate leaves. Emerge deep purple to maroon/black in full sun, maturing to maroon-green or dark olive/bronze in shade. Glossy, slightly toothed

Flowers and fruit

Pendulous, bell-shaped, pure white to very pale pink flowers with dark red/maroon calyces. May–June. Fragrant. Contrast beautifully with dark foliage. 4–8 flowers per raceme

Bark

Not stated

PLANTING NOTES

Planting
None stated

HEALTH

Health
Generally pest- and disease-free. No serious problems stated by inventor. Chlorosis possible in alkaline soils

Symptoms
None stated
