QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: 60–70 ft (18–21 m) high × 30–35 ft (9–11 m) wide.
Uniform, dense, dominant leader. rate

Sun

Water

Soil
Prefers acidic soils. Good heat tolerance observed in the southern United States. Rapid growth

Zone 8a
Hardy in USDA Zones 6–8. Suitable for Atlanta Zone 8a. Selected for heat tolerance in the South. New growth flushes red through summer; mature foliage very dark green. Fast-growing shade tree

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of Quercus rubra (northern red oak). Inventor: Dwayne Moon. U.S. Plant Patent PP34011P2. Selected for dark green mature foliage, significant red flush on new growth through summer, heat tolerance, and rapid growth. Trade name Nobylton®

Form
Deciduous northern red oak with uniform dense form and dominant leader. Large leaves flush red on new growth through summer, maturing to very dark green. Bark smooth grayish-brown when young, maturing dark gray to blackish-brown with horizontal light gray lines and shallow vertical fissures. Typical red oak fall color expected (not detailed). Notable for persistent red flush on new growth through summer and very dark green mature foliage. Heat-tolerant selection from Dwayne Moon. Patented (PP34011). Fast growth and uniform form
