Sun

Water

Soil
Well-drained; tolerates poor or rocky soil. Chalk, loam, or sand

Zone 8a
Hardy Zones 3–8. Strong perennializer and naturalizer for Atlanta when given good drainage and summer dry rest. Excellent for rock gardens and containers. Award of Garden Merit

PLANTING NOTES

Establishment
Plant fall, 3–5 in deep, 4–5 in apart. Leave foliage to die back. Naturalizes well. Ideal for rock gardens, front of borders, containers, and naturalized grass

ORIGIN AND CHARACTERISTICS

Origin
Cultivar in the *Tulipa linifolia* (Batalinii Group). Species native to Central Asia (Iran, Uzbekistan, Turkestan / Pamir-Alai). Introduced historically (related to work by Dr. Batalin)

Form
Dwarf, upright to tufted bulbous perennial. Compact habit. Also sold as *Tulipa batalinii* ‘Red Hunter’. Compact and vivid. One of the better perennial species-type tulips

Foliage
Narrow, upright, gray-green to blue-green leaves, sometimes corrugated or twisted

Flowers and fruit
Not stated

Bark
Not applicable (bulbous perennial)

HEALTH

Health
No serious problems stated. Highly reliable in well-drained conditions. Bulbs toxic if eaten; skin allergen

Symptoms
None stated
