QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Upright, well-branched, dense

Growth & Size
Rate: Not stated
Size: 12–14 in (30–36 cm) tall × 10–12 in (25–30 cm) wide. Upright, dense habit. Some listings note up to 14 in with flowers. Ball Australia lists 30–35 cm height × 25–30 cm width

Sun

Water

Soil
Well-drained. Prefers slightly acidic pH (5.8–6.2). Amend heavy clay. Tolerates average soils if drainage is good

Zone 8a
Grown as an annual in Atlanta Zone 8a. Excellent heat and humidity tolerance. Not reliably perennial

PLANTING NOTES

Establishment
Plant after last frost in full sun. Space 10–12 in apart. Pinch if needed in production (generally not required). Light fertilization. No deadheading needed. Cut back mid-season if desired. Treat as annual in Atlanta Zone 8a

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of *Angelonia angustifolia*.
Annual in most climates; tender perennial Zones 9–11

Form
Upright, well-branched, dense. Compact and sturdy. Ball ArchAngel™ series. Uniform habit and flowering.
Suitable for containers and mixed plantings

Foliage
Green, lance-shaped leaves. Clean appearance

Flowers and fruit
Large orchid-like (snapdragon-like) pink flowers. Continuous summer bloom. Self-cleaning. Noted for biggest blooms in the series

Bark
Not applicable (herbaceous)

HEALTH

Health
No serious problems stated. Thrives in extreme heat, humidity, and short drought. Possible production issues: root rot, Botrytis, whitefly, caterpillars. Self-cleaning flowers reduce disease pressure on blooms

Symptoms
None stated
