Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 2–3 ft (0.6–0.9 m) high × 2–2.5 ft (0.6–0.8 m) wide.
Upright, bushy woody sub Semi- in mild climates

Sun

Water

Soil
Average, dry to medium, well-drained soils. Excellent drainage essential. Tolerates rocky, sandy, or lean soils

Zone 8a
Hardy in USDA Zones 6–10. Excellent for Atlanta Zone 8a. Long-blooming (spring to frost) bright red/magenta tubular flowers. Native Texas/Mexico parent. Extremely heat and drought tolerant. Attracts hummingbirds and pollinators. Deer resistant

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of Salvia greggii (autumn sage), native to rocky slopes from western/central Texas into northern Mexico. Selected by W.A. Furman of Kerrville, Texas in the 1970s. One of the most vigorous and cold-hardy selections.
Plant Select winner

Form
Semi-evergreen subshrub. Small aromatic oval leaves. Bright red to magenta-red tubular flowers in whorls from spring through fall. Upright habit. Attracts hummingbirds, butterflies, and bees. Deer resistant. Classic vigorous autumn sage selection. Long bloom season of bright red flowers. Hummingbird magnet. Extremely tough in heat and drought. Texas native parent. One of the best and most reliable S. greggii cultivars
