QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Suitable for Atlanta Zone 8a. Hardy Zones 5–9. Tolerates humidity better than some hyssops. Prefers full sun and well-drained soil. Not stated for specific Atlanta urban performance beyond general hardiness and heat tolerance

Growth & Size
Rate: Not stated
Size: - 2–3 ft tall × 1.5–2 ft wide

Sun

Water

Soil
Does not tolerate heavy clay or poorly draining soils.
- Well- drained soil. Tolerates poor acid soils

Zone 8a
Suitable for Atlanta Zone 8a. Hardy Zones 5–9. Tolerates humidity better than some hyssops. Prefers full sun and well-drained soil. Not stated for specific Atlanta urban performance beyond general hardiness and heat tolerance

ORIGIN AND CHARACTERISTICS

Origin
- Hybrid of garden origin (A. foeniculum × A. rugosa). Parent species native to North America and Asia.
- Not native to North America

Form
- Upright herbaceous perennial. Stiff square stems. Forms a clump

Foliage
- Green aromatic foliage. Smells of black licorice (anise) when crushed. - Deciduous

Flowers and fruit
- Lavender-blue tubular flowers in terminal spikes (to 4 in). Blooms midsummer to early fall. Attracts bees, hummingbirds, and butterflies. - Fruit not stated

Bark
- Not applicable (herbaceous perennial)

PLANTING NOTES

Establishment

- Plant in full sun in well-drained soil. Good drainage critical, especially in winter. Leave stems over winter for protection in colder zones. - Cut back in mid-spring (High Country Gardens)

HEALTH

Health

- No serious insect or disease problems stated. Deer resistant

Symptoms

None stated
