# *Amsonia hubrichtii*

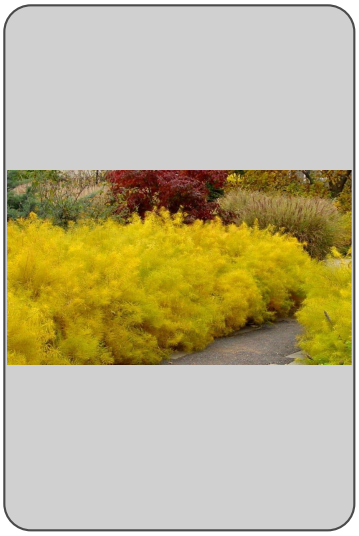

## Arkansas bluestar, Thread-leaf bluestar, Hubricht's amsonia

Also known as: Narrowleaf bluestar | Family: Apocynaceae

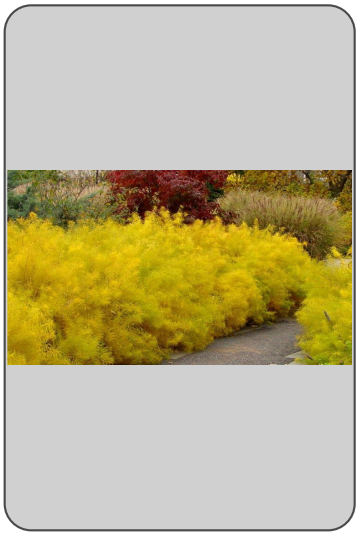

Rockery: 210 | Wonderland: 145 | **TOTAL 355**

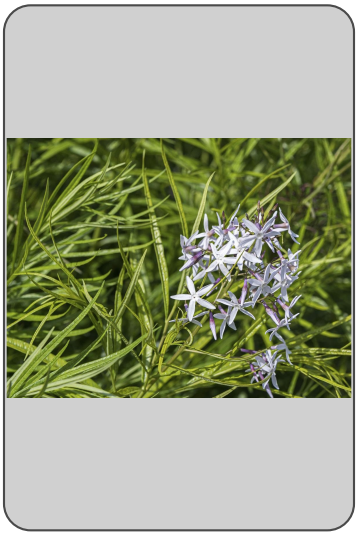

HABIT

FALL

OTHER

FLOWER

## QUICK FACTS

Plant Type: Not stated

**Evergreen or deciduous**
Hardiness commonly Zones 5–8. Suitable for Atlanta Zone 8a

**Growth & Size**
Rate: Not stated
Size: Clump-forming herbaceous perennial, typically 2–3 ft tall and 2–3 ft wide. Mid-range ~2.5 ft tall × 2.5 ft wide

**Sun**

**Water**

**Soil**
Average, medium moisture, well-drained soils

**Zone 8a**
Hardiness commonly Zones 5–8. Suitable for Atlanta Zone 8a

## PLANTING NOTES

**Establishment**
Easily grown in average well-drained soil in full sun to part shade. Cut back after flowering if desired to maintain form. Slow to establish; resents root disturbance

## ORIGIN AND CHARACTERISTICS

**Origin**
Native to the Ouachita Mountains of central Arkansas and adjacent Oklahoma

**Form**
Upright to slightly arching stems densely clothed in soft, narrow, needle-like leaves creating a ferny appearance. Terminal clusters of pale blue star-shaped flowers in late spring to early summer. Foliage turns bright golden yellow in fall. Dies back in winter. 2011 Perennial Plant of the Year. Valued for fine texture, blue spring flowers, and strong golden fall color

**Foliage**
Not stated

**Flowers and fruit**
Not stated

**Bark**
Not stated

## HEALTH

**Health**
No serious insect or disease problems commonly listed. Deer resistant. Milky sap may cause skin irritation

**Symptoms**
None stated
