Hardy in USDA Zones 3–8; performs in cooler areas of Zone 8a with afternoon shade. [Bayport Flower, White Flower Farm, Chicago Botanic]

Growth & Size
Rate: Not stated
Size: 24–36 inches (60–90 cm) high and wide.
[RHS, Dave’s Garden, Bayport Flo

Sun

Water

Soil
Moist but well-drained, fertile, humus-rich soil.
[RHS, White Flower Farm]

Zone 8a
Hardy in USDA Zones 3–8; performs in cooler areas of Zone 8a with afternoon shade. [Bayport Flower, White Flower Farm, Chicago Botanic]

PLANTING NOTES

Establishment
Plant eyes 1–2 inches deep. Cut back after foliage dies. Strong stems; staking sometimes needed.
[White Flower Farm, Chicago Botanic]

ORIGIN AND CHARACTERISTICS

Origin
Herbaceous hybrid (introduced 1851 by Miellez).
[Dave’s Garden, Green Works]

Form
Herbaceous perennial with dark green divided foliage. Fully double, fragrant white flowers with crimson flecking in late spring to early summer. Dies back in winter. [RHS, Chicago Botanic]. Heirloom variety, excellent cut flower, long-lived. [Bayport Flower, ADR Bulbs]
