QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Herbaceous perennial

Growth & Size
Rate: Not stated
Size: 18–36 in (45–90 cm) tall × 18–24 in (45–60 cm) wide.
Bushy mound. Spreads by bulbils and tubers.
Clump- forming

Sun

Water

Soil
Rich, organically rich, moist, well-drained. Slightly acidic to neutral. Prefers woodland-type soils. Good drainage essential

Zone 8a
Hardy Zones 6–9. Excellent for Atlanta Zone 8a. Reliable perennial in shade with consistent moisture and good drainage. Heat-tolerant in shade. Mulch optional but beneficial.
One of the best hardy begonias for the region

PLANTING NOTES

Establishment
Low to medium maintenance. Mulch in winter in colder zones (Zone 6–7). Deadhead for continuous bloom. Excellent for shade gardens, woodland, borders, containers.
Reseeds and spreads via bulbils. Hardy to about 23°F

ORIGIN AND CHARACTERISTICS

Origin
Native to China and Japan. Shady slopes, wet places

Form
Herbaceous perennial. Clumping, mounding, spreading. Dies back to tuber in cold winters. One of the few hardy begonias. True hardy begonia for shade. Attractive foliage and long bloom

Foliage
Large, heart-shaped (asymmetrical), toothed green leaves with red veining. Underside red to bronze. Attractive.
Dies back in winter in colder zones

Flowers and fruit
Loose clusters of pink (sometimes white) fragrant flowers. Mid-summer to first frost. Attracts pollinators. Nodding

Bark
Not applicable

HEALTH

Health
Generally low pest and disease issues. Possible root rot in wet soils. Powdery mildew risk in poor air circulation. Deer-resistant. Toxic to pets (oxalates). Spreads by bulbils.
No serious problems when properly sited

Symptoms
None stated
