QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Hardiness commonly Zones 4–8 or 3–8. Suitable for Atlanta Zone 8a in part shade with good moisture retention

Growth & Size
Rate: Not stated
Size: Spreading herbaceous perennial, typically 12–18 in tall and 12–20 in wide. Mid-range ~15 in tall × 15–18 in wide

Sun

Water

Soil
Humusy, medium moisture, well-drained soils

Zone 8a
Hardiness commonly Zones 4–8 or 3–8. Suitable for Atlanta Zone 8a in part shade with good moisture retention

PLANTING NOTES

Establishment
Part shade, rich well-drained soil. Light summer mulch beneficial. Cut back after flowering if desired

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of eastern North American native woodland phlox (Phlox divaricata). Introduced/popularized via Dutch selection and Piet Oudolf

Form
Mat-forming ground cover with lance-shaped green foliage. Loose clusters of fragrant, pale blue to nearly white star-shaped flowers in mid to late spring. Fragrant spring bloomer. Excellent woodland ground cover or underplanting

Foliage
Not stated

Flowers and fruit
Not stated

Bark
Not stated

HEALTH

Health
Generally low-maintenance. Watch for powdery mildew (cut back after flowering helps). Attracts butterflies and hummingbirds

Symptoms
None stated
