QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Hardy in USDA Zones 9–11 (or 10–11). Treated as an annual or container plant in Atlanta Zone 8a; can be overwintered indoors. Performs well in partial shade with consistent moisture

Growth & Size
Rate: Not stated
Size: 6–12 in (15–30 cm) high × 18–24 in (45–60 cm) wide.
Trailing, spreading, cascading habit

Sun

Water

Soil
Bright indirect light or partial shade; protect from intense direct sun to avoid scorch. Evenly moist but well-drained soil; allow slight drying between waterings. Avoid waterlogging

Zone 8a
Hardy in USDA Zones 9–11 (or 10–11). Treated as an annual or container plant in Atlanta Zone 8a; can be overwintered indoors. Performs well in partial shade with consistent moisture

ORIGIN AND CHARACTERISTICS

Origin
Cultivar in the Plectranthus genus (mint family). Trade selection valued for variegation and lemon fragrance. Related to Swedish ivy types

Form
Trailing herbaceous plant with soft, slightly fuzzy, serrated/heart-shaped leaves. Foliage emerges chartreuse/pale green and matures to green with distinctive lemon-yellow or cream variegated edges. Strong citrus/lemon scent when crushed. Rarely flowers. Cascading form ideal for baskets, spillers, ground cover. Aromatic foliage with citrus scent. Variegation best in bright light. Popular for sensory gardens and mixed containers. Sometimes listed under related species in trade

PLANTING NOTES

Establishment

Plant in partial shade with well-draining potting mix. Keep evenly moist. Pinch or trim to maintain shape and encourage bushiness. Excellent as a spiller in containers, hanging baskets, or as ground cover in mild climates. Bring indoors before frost in cooler zones. Propagates easily from cuttings

HEALTH

Health

Easy care. No serious problems stated. Avoid extremes of moisture. Generally pest-free when conditions are suitable

Symptoms

None stated
