QUICK FACTS

Plant Type: Shrub

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: 4–5 ft (1.2–1.5 m) tall × 4–6 ft (1.2–1.8 m) wide.
Semi-compact, well-branched, mounded.
Hybrid of ‘Attraction’ × ‘Miss Rub

Sun

Water

Soil
Average, medium moisture, well-drained. Adapts to clay if amended. Prefers good drainage. Avoid soggy conditions

Zone 8a
Hardy Zones 5–9. Excellent for Atlanta Zone 8a. Heat- and drought-tolerant. Full sun and good drainage essential. Reliable summer-to-fall bloomer. May die back in colder winters but regrows vigorously

PLANTING NOTES

Establishment
Prune hard in early spring (to ~12 in) for vigor and blooms. Low maintenance. Excellent for borders, cottage gardens, pollinator gardens, containers. Heat-loving.
Fertilize lightly in spring

ORIGIN AND CHARACTERISTICS

Origin
Hybrid. Bred by Dr. Dennis Werner. Proven Winners selection

Form
Deciduous shrub. Mounded, dense, well-branched. Medium size. Blooms on new wood. Closest to true red of butterfly bushes. Proven Winners

Foliage
Green leaves. Attractive. Deciduous

Flowers and fruit
Densely packed, bottlebrush-shaped terminal inflorescences (~4 in) of small magenta-red / sangria-red tubular flowers. Closest to red of any butterfly bush. Fragrant. Mid-summer to frost. Attracts butterflies and hummingbirds.
No deadheading needed for continuous bloom

Bark
Not prominently noted

HEALTH

Health
No serious insect or disease problems. Deer- and rabbit-resistant. Heat- and drought-tolerant. Non-invasive.
No serious problems stated

Symptoms
None stated
