PLANTING NOTES

Establishment

Plant in part shade with acidic, organic, well-drained soil. Water to establish. Suitable for hedges, borders, or specimens. Reblooming potential extends seasonal interest. Minimal pruning. Protect from strong winds and hot afternoon sun if needed

HEALTH

Health

Medium maintenance typical of evergreen azaleas. Generally disease-resistant when properly sited in acidic, well-drained soil. Attracts hummingbirds and butterflies.
No serious problems stated as dominant

Symptoms

None stated
