QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: 15 cm (6 in) tall × 30 cm (12 in) wide typical. Slow-spreading perennial groundcover.
Some listings 5–8 in tall × 6–12 in

Sun

Water

Soil
Humus-rich, moist but well-drained. Acid to neutral preferred. Tolerates clay, loam, sand. Enrich with organic matter

Zone 8a
Hardy Zones 7–9. Suitable for Atlanta Zone 8a in shade with consistent moisture and good drainage. Evergreen potential. Heat and humidity tolerant in shade

PLANTING NOTES

Establishment
Grow in shade with organic-rich soil. Good for woodland, underplanting, containers, groundcover. Cut back untidy foliage late winter/early spring. Slow to establish

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of *Asarum maximum* (native to China). Garden selection. Named for the giant panda Ling Ling

Form
Evergreen perennial. Mat-forming, compact, slow-spreading groundcover. Clumping via rhizomes.
Distinctive panda-face flowers. Not culinary ginger

Foliage
Dark green, heart-shaped (cordate), glossy, leathery leaves. Sometimes marbled with pale green or silver.
Evergreen in mild climates

Flowers and fruit
Three-lobed black flowers with white centers (panda-face appearance). Spring, often hidden under foliage.
Malodorous; fly-pollinated

Bark
Not applicable (herbaceous)

HEALTH

Health
Generally pest- and disease-free. Possible slugs and snails on new growth. No serious problems stated when properly sited. Not toxic reported for this cultivar (general genus caution on some species)

Symptoms
None stated
