QUICK FACTS & PLANTING

Type: Tree
Evergreen/Deciduous: Evergreen
Mature size: 6–12 ft (sources range 4–6 ft to 10–12 ft). **Open:** Mature height range varies; no tight three-source agreement. × 4–6 ft. Confirmed by multiple sources. Narrower, upright habit.
Hardiness / Zone 8a: Suitable for Zone 8a. Hardy Zones 6–9. Ackerman hybrid from U.S. National Arboretum. Cold-hardy camellia that performs in Atlanta with afternoon shade and acidic soil. Fall-to-winter bloomer. Restart pass (2026-10-13): NC State confirms camellia group performance in the Southeast. Existing notes stand.
Sun: Part shade to full shade. Avoid hot afternoon sun.
Water: Medium. Prefers consistently moist, well-drained soil.
Soil: Acidic, organically rich, well-drained.
Growth rate: Not stated
Not stated
Planting:
Siting: Plant in part shade in acidic, well-drained, humus-rich soil. Protect from hot afternoon sun and strong winds. Water regularly until established. Mulch roots. Prune after flowering if needed. Suitable as hedge or specimen.
Soil prep: Acidic, organically rich, well-drained.
Depth/spacing: Not stated
Season: Not stated
Establishment: Not stated

ORIGIN, CHARACTERISTICS & HEALTH

Origin / native: Ackerman hybrid (Winter Series). U.S. National Arboretum breeding program. Selected for cold hardiness and fall/winter bloom.
Form / habit: Evergreen shrub. Upright, columnar to dense. Medium growth.
Foliage: None (evergreen). New growth burgundy-red.
Flowers / fruit: Not stated
Bark / stem: Not stated in detail.
Not stated
Health:
Health notes: Typical camellia issues possible (scale, petal blight, root rot in poor drainage). Mildly deer resistant. No serious problems uniquely stated.
Open: Specific Zone 8a incidence is thin.
Not stated
Additional:
- White semi-double to anemone-form flowers. - Blooms late fall to mid-winter.
- New growth burgundy-red. - Cold hardy for a camellia (to Zone 6). - Upright habit suitable for narrow spaces.
