QUICK FACTS & PLANTING

Type: Tree
Evergreen/Deciduous: Deciduous
Mature size: 10–15 ft. Confirmed by multiple sources (Gardenia, SiteOne, RHS, plant lust). × 8–15 ft. Confirmed range.
Hardiness / Zone 8a: Suitable for Zone 8a. Hardy Zones 6–9. Japanese maples generally perform in Atlanta with afternoon shade and consistent moisture. Leaf scorch risk in full sun and dry conditions. Restart pass (2026-10-13): NC State confirms Japanese maple group prefers dappled shade and even moisture. [https://plants.ces.ncsu.edu/plants/acer-palmatum/]
Sun: Full sun to part shade. Color best with some protection from hot afternoon sun.
Water: Medium. Prefers consistently moist, well-drained soil. Sensitive to drought.
Soil: Well-drained, slightly acidic to neutral. Rich preferred.
Growth rate: Not stated
Not stated
Planting:
Siting: Plant in full sun to part shade (afternoon shade preferred in Zone 8a) in moist, well-drained, slightly acidic soil. Water regularly, especially during establishment and dry periods. Prune in dormancy if needed. Suitable for containers or specimen use.
Soil prep: Well-drained, slightly acidic to neutral. Rich preferred.
Depth/spacing: Not stated
Season: Not stated
Establishment: Not stated
