QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Evergreen

Growth & Size
Rate: Not stated
Size: Height: 15–20 feet.
Spread: 6–10 feet. [Monrovia]

Sun

Water

Soil
Prefers fertile, well-drained soil. Neutral to slightly alkaline. [RHS]

Zone 8a
Evergreen in Atlanta. May experience some leaf burn in severe cold or drought. Generally reliable with protection from harsh winter wind. [Local nursery notes]

PLANTING NOTES

Establishment
Provide support. Prune lightly after flowering if needed. Mulch roots to keep cool. [Monrovia]

ORIGIN AND CHARACTERISTICS

Origin
Not stated

Form
Vigorous evergreen woody vine. Climbs by twining leaf petioles. Dense, cascading habit. Fast growth rate. [Monrovia] [RHS]. Early spring bloomer. Excellent for covering walls and trellises. Native to China. [Monrovia]

Foliage
Leathery, dark green, lanceolate leaves in threes. Evergreen. Glossy texture. [Monrovia]

Flowers and fruit
Not stated

Bark
Mature stems woody, brown. [Secondary]

HEALTH

Health
Susceptible to clematis wilt in some conditions. Watch for aphids. No serious problems stated for most plantings. [RHS]

Symptoms
None stated
