QUICK FACTS

Plant Type: Not stated

Evergreen or deciduous
Deciduous

Growth & Size
Rate: Not stated
Size: Approximately 55 ft (17 m) high × 45 ft (14 m) wide.
Upswept pyramidal / upright oval form. rate.
Densely foliated

Sun

Water

Soil
Urban tolerant, wet soil tolerant, heat and drought tolerant. Adaptable to a range of conditions typical of overcup oak (bottomlands to drier sites in cultivation)

Zone 8a
Hardy in USDA Zones 5–9. Suitable for Atlanta Zone 8a. Southeastern native overcup oak selection. Upswept form useful in streetscapes. Glossy dark green foliage; red to purple-red fall color in many years

ORIGIN AND CHARACTERISTICS

Origin
Cultivar of Quercus lyrata (overcup oak). Seed parent unnamed selection of Q. lyrata; pollen parent unknown. Propagated by grafting. U.S. Plant Patent PP28,402. Inventor John Barbour. Trade name Marquee® . Introduced by Athena Trees

Form
Deciduous overcup oak with upright branching habit and upright oval / pyramidal form. Freely branching, densely foliated. Glossy dark green leaves that become purple-red to orange in autumn. Bold texture. Selected for form and foliage quality. Notable for glossy dark green foliage (described as among the prettiest on an overcup) and upswept pyramidal habit. Patented (PP28,402). Excellent urban and wet-site performer.
Fall color variable but often red-purple
